

***2nd meeting of the Presidents of the European National
Medical Associations and Chambers
Vienna on March 3rd, 2016***

Conclusion

The representatives of the National Medical Associations and Chambers present at the 2nd meeting of the Presidents of the European National Medical Associations and Chambers in Vienna conclude that it is of utmost importance that the medical profession speaks with a strong voice vis-à-vis the institutions of the European Union.

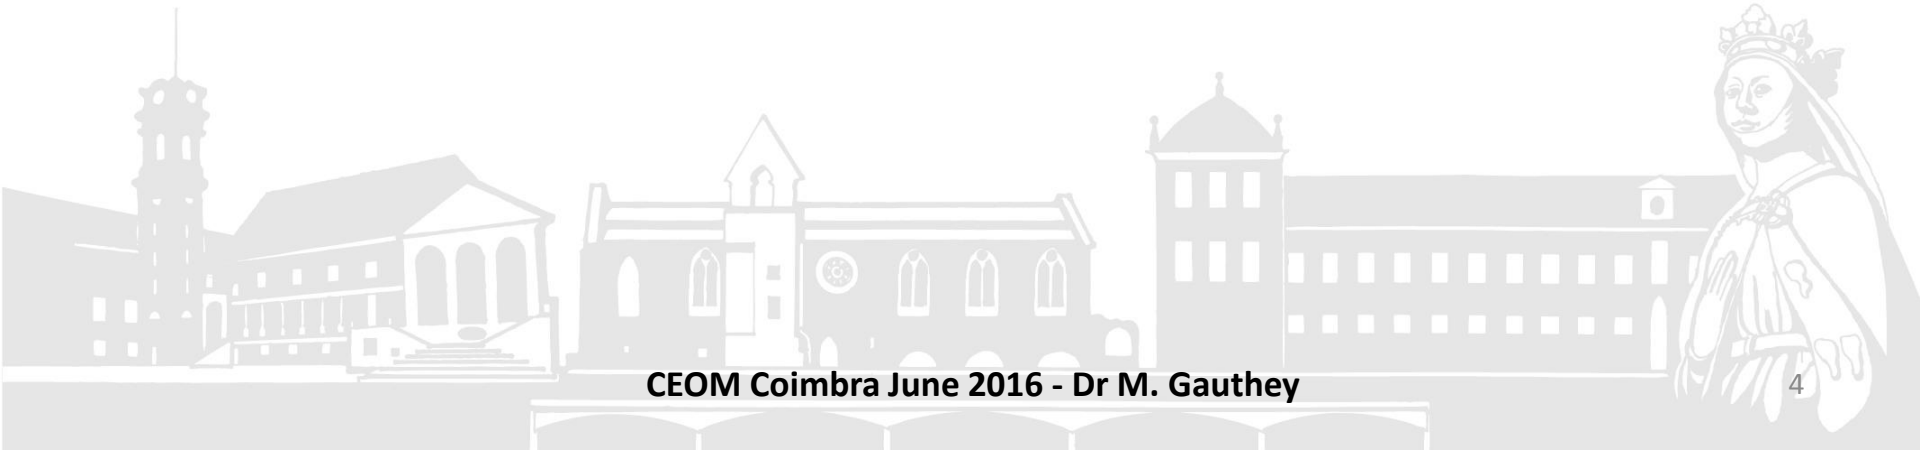

Therefore, the European medical profession needs to combine its forces and should be represented politically by the CPME, as it unites the most representative National Medical Associations in Europe.

The implementation of this proposal might also bring about a restructuring of CPME which should be discussed at one of the next CPME meetings.

All European National Medical Associations, Chambers and EMOs are now invited to discuss this conclusion.

OBRIGADO · THANK YOU
